

### ABOUT US

**C3-ilex** specializes in the delivery of high quality products and services in the areas of consulting, control and custom software projects. C3-ilex develops, manufactures, and markets state-of-the-art, real-time monitoring and control products and systems for industrial, commercial and government applications. C3-ilex also provides a wide range of complementary engineering and consulting services.

**C3-ilex**, a privately held corporation, began operations in 1982 under the name of ILEX Systems, Inc. In January 1999, C3-ilex, LLC was created from two former Ilex Systems, Inc. divisions consisting of:

- Consulting Services
- SCADA Systems

Corporate offices are located in Fremont, California in the heart of Silicon Valley. Located in this facility are C3-ilex's manufacturing and engineering laboratories. Additionally, C3-ilex has an office and consulting personnel in Wilmington, NC.

### CONSULTING SERVICES

**C3-ilex** provides technical services in software, firmware, hardware, and systems design for real-time monitoring and control. Our staff consists of management, project managers and engineers with extensive experience in power generation and distribution applications. For over 20 years we have been developing innovative, value added solutions to meet the needs of our customers.

**C3-ilex's** consulting services staff consists primarily of permanent salaried professionals averaging 20 years of experience delivering monitoring and control projects from creation of project requirements, through system design and development, to support of final installation. To better serve our customers, C3-ilex has developed a flexible business model that adapts to each customer's unique needs with an emphasis on project management, software quality and proven business processes.

**C3-ilex's** years of experience with real-time monitoring and control systems uniquely position us to provide quality consulting services be it technology assessments, application software development, teaming services or custom product development.

### SCADA SYSTEMS

**C3-ilex** was the first manufacturer of Supervisory Control and Data Acquisition (SCADA) systems to introduce a PC based solution to the Utility Industry. Since 1983, C3-ilex SCADA products have been delivered to Electric, Water and Waste Water Utilities with hundreds of SCADA Systems and thousands of Remote Terminal Units installed worldwide.

**C3-ilex's** SCADA product line includes PC based Master Stations with automatic system failover, full graphics, and sophisticated monitoring and control capabilities, as well as Remote Terminal Units (RTUs) that perform communication, data concentration, and connection to a wide variety of Intelligent Electronic devices (IEDs) and physical points. Installations range from standalone single Master Station systems to large distributed networks of servers, operator workstations, and remote CRTs performing integrated SCADA, Load Management, Automatic Generation Control, Real Time Outage Detection, and Interactive Voice Response capabilities. The network approach offers a building block of processors performing simultaneous processing and provides upward expansion capability for SCADA/EMS applications.

Since pioneering the PC based SCADA system, C3-ilex has been a leader in the small to mid-sized Utility market. Each year the SCADA Systems Division invests heavily in research and development to maintain its reputation for providing leading edge technology and innovative products to the rapidly changing Utility industry.

### THE PEOPLE AT C3-ilex

**C3-ilex's** key to continuing success is the talent and dedication of our employees. The company has been consistently successful at attracting software and hardware professionals of the highest caliber and skill level. Moreover, C3-ilex management reflects a diverse mix of seasoned professionals with decades of experience in managing the complex challenges of technology driven companies.

The **C3-ilex** culture recognizes and rewards employee excellence and provides a forum for continuous growth and improvement. As part of our mission, the entire C3-ilex team is committed to maintaining the very highest standards of quality and service.
